

Turning Point
Domestic Violence Services

IMPACT REPORT 2018

JOHNSON COUNTY

FROM OUR PRESIDENT

Dear Friends,

As we look back on the highlights of 2018, everything that the Agency was able to accomplish would not have been possible without your amazing support. Thank you for being with us every step of the way.

This past year, we fostered collaborations to expand programming and services in all of our service areas. Shelter nights provided to adults and their dependent children hit an all-time high, highlighting violence is a still a grave need in our service areas. This also indicates that those in need are aware and seeking services. Clients are staying in our programs longer allowing us to increase case management, setting clients up for success and transition to self-sufficiency.

The expanded transitional housing program allowed us to provide support and resources to over 24 families as they move to new homes. This program is possible because of the strong partnerships with Thrive Alliance for housing, Family Service for mental health services and Su Casa for referrals and translation services.

Turning Point's Prevention Team worked tirelessly throughout the year to educate families, children, and young adults on healthy relationship skills through presentations and events. The focus has been on incorporating Developmental Assets into all of our work, reducing risk factors and promoting protective factors. This past year the Team introduced *Family Game Night* as a fun, engaging and instructional way to promote healthy relationships.

In planning for the future, our Board of Directors formed a long term facilities committee to explore the Agency's facility needs over the next decades. As we continue to focus on the concept of comprehensive advocacy, where all our services are closely woven together, the need for an expanded and different facility has become critical. You will be hearing more about this as the process progresses.

In 2019, we continue to reach more partner stakeholders through programs, presentations, and events, as we work together to create a healthy and safe community for everyone.

We hope you enjoy reviewing all that we have accomplished together. Thank you again for your continued confidence in Turning Point's mission as we work together to prevent and eliminate domestic and dating violence!

Sincerely,

Lisa Shafran,
President

CLIENT SERVICES

You help survivors of domestic violence find safety and vital support on the road to self-sufficiency.

A client reached out to Turning Point Of Johnson County for support with the legal system. In order to communicate with the client Turning Point utilized Propio Language services to overcome language barriers. Clear communication provided the client access to community resources including housing, food, utilities, car insurance, and more. The client was able to engage with an attorney through Turning Point and Propio to work towards regaining custody.

THANK YOU FOR YOUR 2018 SUPPORT OF OUR CAUSE

You brightened every single day for us in 2018! With your generosity you gave a family a safe place to escape a dangerous situation. You provided a survivor the tools and resources they need to create safe and stable life. Your gift helped answer the crisis call line for those who need immediate assistance for domestic violence or sexual assault. Your kindness taught a class of young adults about healthy relationships and how to recognize the signs of abuse. Without you we could not do what we do! **THANK YOU!**
